- *1-1 xD-Picture Card can be used by using with CF Card Adapter: MACF-10.
- *1-2 Microdrive which capacity is up to 4 GB can be used. However, do NOT use 340MB Microdrive.
- *1-3 Please do NOT use 32MB SmartMedia which is formatted on computer to the C-1400XL camera. It may give a damage on your data stored in the card for their differences of format.
- *1-4 Please visit [CompactFlash and Microdrive compatible with C-8080 Wide Zoom](#) or [CompactFlash and Microdrive compatible with C-5060 Wide Zoom](#).
- *1-5 For C-5050 ZOOM camera, please do NOT insert two different media cards such as xD-Picture Card and SmartMedia, or CompactFlash and Microdrive into Media Slot (Dual Slot) at the same time. Before using Microdrive, please see the following:
 - Since Microdrive is rotating system record media, please do NOT give vibration or impact to the camera especially during recording or playing back.
 - When using Microdrive, battery power might be consumed quickly. Therefore, it is recommended to use high-capacity batteries such as CR-V3 lithium or NiMH. It is also recommended to use xD-Picture Card, SmartMedia or CompactFlash for recording your important pictures.
 - 512MB and 1GB Microdrive media has been tested but not 340MB. Please do NOT use 340MB Microdrive.
- *1-6 C-770 Ultra Zoom does not allow to record movies with use of the xD-Picture Card Type M in the following conditions: 1) selecting MPEG4 in the record modes, and 2) selecting ON in the sound record mode.
- *1-7 Not compatible with xD-Picture Card Type M (512MB).

Digital Camera(SmartMedia with features)

"X": Compatible

"XX": Compatible (To use panorama stitch function, CAMEDIA Master or C-3.0 software is required. Please refer to [compatible softwares](#) for your camera.)

"-": Card can be used as ordinary record media (No panorama or other additional features).
