Dear colleague,

Again it is my great pleasure to invite you to our annual EUS-course, which will celebrate its thirteenth edition this year. EUS2010 – Live in Amsterdam will be held again in the first week of June on Thursday and Friday, 3 & 4 June 2010.

The original team that started EUS live in Amsterdam, Robert Hawes, Thomas Rösch and myself, will again be present. However we could not do this successful course without additional faculty such as Bertrand Napoleon, Irving Waxman and Robin Timmer.

They are all very experienced endosonographers as well as good physicians, always critically looking at what they are doing. We hope the team for 2010 will again be able to come up with a balanced view on the possibilities and impossibilities of Endosonography.

EUS2010 – Live in Amsterdam will again focus on the latest techniques and indications for EUS and will mix concise plenary presentations with high-quality live demonstrations. We are proud to be organizing one of the largest dedicated EUS-courses in the world and we look forward to your active participation, which is an essential part of our meeting.

See you in the Academic Medical Center on 3 & 4 June 2010!

Yours sincerely,
Paul Fockens, *chairman*
