TRAINING IN TOTAL LAPAROSCOPIC HYSTERECTOMY (TLH)

24–25 June 2013
18–19 November 2013
10–11 March 2014

In this training course you will see how surgeons with laparoscopic experience can perform total laparoscopic hysterectomy safely.

The trainers will carefully instruct you step-by-step in the most efficient and safest techniques so you will be able to perform total laparoscopic hysterectomy in a confident way.

All details of laparoscopic hysterectomy, including ergonomic aspects, will be discussed in theory and observed during live surgeries in the OR.

The gynaecological surgical team of Lille University hospital will be proud to meet you in our unit. We will focus on total laparoscopic hysterectomy with didactic lectures and interactive live surgery in our operating rooms. You will have the opportunity to learn new advanced techniques.

We will select specific cases in order to describe the different surgical steps to perform TLH minimising postoperative complications.

We are looking forward to meeting you in Lille.

Kind Regards,

Prof. Dr Michel Cosson, Prof. Dr Pierre Collinet, Dr Loic Boulanger and Dr Jean-Philippe Lucot
AGENDA

Day One

06.00-06.30 p.m.
Welcome and introduction

06.30-08.00 p.m.
Procedures and techniques
· Surgical anatomy
· Ergonomics
· Dedicated equipment for laparoscopic hysterectomy
· Laparoscopic hysterectomy with video presentation
· Results

08.30 p.m.
Dinner

Day Two

08.00 a.m.-12.00 p.m.
OR
· Three live hysterectomy cases

12.00-02.00 p.m.
Concluding discussion and lunch

02.00 p.m.
Departure
