

KA333 3.5mm Stereo Jack to Jack

- For dubbing recordings
- ideal to playback music from a voice recorder via a car hifi system (KA-333 will connect the AUX-IN of the car hifi system with the EAR/LINE-OUT of the voice recorder)

Connect EAR jack with MIC jack

The KA-333 connects from the "earphone" jack of a voice recorder to the audio-input of another recording device. So e.g. dubbing to a cassette-deck, CD recorder or PC is possible. Additional plug adapter to convert 3.5. to 2.5 and vice versa are included.
