The compact solution for go-anywhere magnification

With the new Monocular i Olympus is offering a go-anywhere solution to magnify distant objects with one eye. No matter if at the opera, theater, an art exhibition or taking part at a seminar, this stylish model is the ideal solution for anybody wishing to enjoy the convenience of having 6x magnification at their fingertips. Crystal-clear viewing is guaranteed in all situations through its high-quality lens system with a 16mm diameter. The body is filled with nitrogen gas to prevent fogging - meaning Monocular i users will already be enjoying perfect views in the concert hall long before others without this valuable benefit.
