

CLA-T01 Conversion Lens Adapter

- Conversion lens adapter for the high-class TG-series
- Easy attachment to the camera even under water up to a depth of 12m
- Compatible with the dedicated Olympus converter lenses FCON-T01/T02 and TCON-T01 plus various 40,5mm lens filter

Conversion lens adapter (40.5mm)

Unlike with most cameras in the compact class, you can attach waterproof converters and 40,5mm lens filters to the high-class TG-series using the CLA-T01 conversion lens adapter. It has been especially designed for TG cameras with a screw diameter of 40,5mm and enables the attachment of the fisheye converter lens FCON-T01/T02 or the tele converter lens TCON-T01 for expanding your photographic horizons - even under water up to a depth of 12m. Compatible with: FCON-T01 / FCON-T02 / TCON-T01 / TG-2 / TG-3 / TG-4 / TG-5 / TG-6
