

## CHS-09 Floating handstrap

- Perfect gear for worry free underwater photography
- In signal colour for easy locating on the water
- Lightweight and compact size for high portability

---

## Floating Tough

Keeps Tough series cameras from quickly sinking to the bottom. Gentle positive buoyancy of strap allows users to take steady underwater pictures without having their hand forced to the surface. Adjustable for the perfect fit on your wrist or arm. Carabiner loop for clipping to your lifejacket or scuba gear.
