

MF-2 OM Adapter

- Adapter to connect OM lenses to the Micro Four Thirds mount

Reanimate your OM lenses.

With the MF-2 OM lenses can be connected to the outstandingly small Micro Four Thirds mount. It is possible to use the whole range of OM lenses with a Micro Four Thirds body*. With this adapter the potential of usable lenses expands only with an additional weight of 78g**. *Please use manual focusing while shooting **Lenses for the OM 707 and OM 101 are not compatible with the MF-2
